## Grade Management System for the Grade Checker

Now Supports  
Topcon  
Total Stations

**Pocket 3D construction software is at the heart of Topcon's GPS (RTK) Grade Management System**

MILLIMETER  
**GPS**  
COMPATIBLE

- CHECK GRADE & VERIFY CUT/FILL ANYWHERE AND EVERYWHERE!
- SET GRADE STAKES
- VOLUME QUANTITIES - MEASURE AND COMPARE SURFACES
- MEASURE AND STORE AS-BUILTS
- INDUSTRY'S EASIEST TO USE INTERFACE
- INTERNAL BLUETOOTH® WIRELESS TECHNOLOGY

Topcon's GPS+ technology is changing the way grade checking, staking and excavation gets done. By simply adding our Grade Management System to their business, contractors take more control over their entire jobsite. Pocket 3D puts the power of GPS+ based site management in the hands of site foreman and grade checkers making it easy for them to verify grades, reset stakes or locate any area on the site.

With Pocket 3D, contractors can measure their productivity on a monthly, weekly or even daily basis to make sure they are staying on schedule. This information provides contractors a tool for maximizing equipment utilization. What a great way to get the most out of your biggest investment.

### Features

- Industry's easiest user interface
- Move files from Pocket 3D to 3D Machines
- Stakeout pads, roads/curbs, top and toe of slopes & daylight lines
- Topo surfaces and calculate quantities
- Compatible with all Topcon GPS+ and Robotic Systems

### Benefits

- Real time cut/fill info anywhere, not just at stakes
- Reduce survey costs by setting stakes/checking grade in-house
- Bid verification - estimate more accurately
- Rough stake a project for scrapers and dozers - start jobs faster
- Calculate quantities of dirt moved - get paid for work completed

Finally, a powerful jobsite management tool made for contractors and the way they work. Topcon's Pocket-3D Grade Management solution brings GPS down to earth. Call today for more information or an onsite demonstration.
